

# *Paul Keith Kelly*

*1957 - 2008*

Friends For Life and persons affected by HIV/AIDS in the Mid-South lost a dear friend when Paul Kelly died at his home September 23, 2008. Paul's love for and commitment to Friends For Life led him to serve two separate terms on the Board of Directors; one term early in the agency's history and more recently from 2004-07. Paul was a familiar face at all fundraising events of Friends For Life, spreading his joy of life and love of Friends For Life everywhere he went. The Board of Directors, staff and persons served by Friends For Life honor Paul's life and will keep him in our memory forever.

**Paul was a true friend for life.**
